Company Brief History

In **2005** the Company “Center of Logistics” was founded, from the beginning, it specialized in performing warehouse services in its own warehouses in Naberezhnye Chelny and Moscow, goods transportation in different directions. As time has gone on, the volume increase in import-export processes and integration of Russia in world

economic community cause the demand for services by customs support of foreign trade loads in all stages. For the purpose of meeting the demands, LLC **Center of Global Logistics** was developed. It emerged that, **we try a successful shot of taking rightful place in the market by foreign trade activity.**

Our perspectives (strategic profile)

Our strategy:

- **In 2014-2016** search and making close cooperation with foreign companies, specialized in logistics and needed logistics services in Russia. Primary investigations show that in order to connect South-East Asia and Europe, creating in such a way a tunnel, we need professional partners in Poland and China. Therefore, creating the bridge Europe-Russia-Asia, we consider, that different companies, Russian and foreign, and logistics as well can use our services
- **In 2017-2019** we are going to develop our own network of **consignment and consolidation warehouses** in different regions of country and the world.

Advantages of working with us

Full and exact information

Of our own accord, without partners request, **perform comprehensive and immediate information** about your loads location. You always know loads actual location during transportation and about customs registration all stages. A central priority for us is that our partners are always informed on 100%. We perform the most important amendments in worldwide legislations, the knowledge about them is very useful as well.

Foreign trade operations legitimacy

Our Company sets sights on development and permanent improvement. **We carefully inspect all foreign trade operations for the purpose of their legitimacy** and corresponding to foreign trade activity standards and rules. We care about our company and partner company images.

Detailed foreign trade operations elaboration

There is no such thing as triviality. We always care about safety delivering, appropriate dates and costs provided services. **All delivering stages have been calculated by dates and costs in early stage of delivering preparation.**

For us, there is no phase of delivery, which we could not control and which we could not affect.

Flexibility

when working with partners

Participation in the organization of foreign trade activity always requires a willingness to change and flexibility in meeting the demands of partners. **We are ready for change and ensure flexibility.** Sometimes circumstances require unusual, creative approaches to complex issues and we are happy to undertake the solution of any difficulties.

Qualified staff

We always strive to meet all industry standards. This applies to the qualification of our staff. That's why we carefully approach to recruitment, and we are confident that **our team includes professionals only.** Our staff also periodically improve their skills by attending various training courses and seminars.
